

Case Study: ENERGY

Workspace

WHO

- Multinational supermajor Oil & Gas company subsidiary
- Dedicated Trading and Shipping commodity arm
- 900 staff spread across 5 locations globally

CHALLENGE

- New office, meeting room and AV implementation for trading floor at new build offices
- To be delivered to very tight installation timeline as new office was constructed

SOLUTION

- AV expertise through Ecosystem provided dedicated AV consultants
- Dedicated Project Management
- Built the majority of the solution off-site and then installed to site
- Delivered over 8 weeks

BENEFITS

- Right first-time plan
- No post-project snag list thanks to staged plan
- Changes made by customer easily actioned and accommodated
- Worked seamlessly alongside office construction
- Delivered on time

WHY SERVIUM?

- Customer confidence in Servium proposal
- Flexibility demonstrated throughout project
- Servium fully committed to timeline where others couldn't
- Introduced innovative, emerging technology into AV rooms
