

# Case Study: LAW

## WHO

- International legal services firm
- Considered one of the world's best off-shore law firms
- Based in 9 x jurisdictions across the globe
- 500 users

## CHALLENGE

- Aging Cisco security estate
- Need for next-generation firewalls
- Finance branch app needed tighter security
- Regulatory pressures increasing around the business

## SOLUTION

- Conducted web meetings with various vendors
- Helped narrow choice down to Palo Alto
- 2-day workshop conducted with customer
- Demonstrated how Palo Alto solution would work
- 2 phase approach - part 1 HQ, part 2 global rollout
- Supplied hardware and engineering resource
- Worked with local office to arrange switchover out of hours
- Created security policies to administer solution

**Servium**

## BENEFITS

- Important peace of mind
- Now meeting relevant security standards
- Freedom to innovate in other areas of business
- IT function trained on new technology
- Ongoing review to ensure adoption of security best practice

## WHY SERVIUM?

- Understanding of relevant vendor technologies for recommendation
- Took pragmatic approach to switchover
- Gain benefit of resource scaled across multiple projects
