

## TECHNOLOGY ASSET DISPOSAL

Recycling and disposal for all your technology needs

### SECURE DISPOSAL OF UNWANTED IT ASSETS

Thanks to our comprehensive Services Ecosystem, comprised of a range of specialist partners, we provide a complete service for recycling and disposal of redundant IT. Whatever your technology, we collect your equipment then recycle or dispose of it in a secure and environmentally sensitive way, ensuring strict compliance with the WEEE directive.

As a result, we deliver one of the UK's leading Technology Asset Disposal services, covering servers, desktops, laptops, tablets, printers, comms equipment, mobile phones, office phones and digital signage.

Importantly, all recycling and disposal services take place at highly secure UK locations, protected by 24-hour gated security and manned around the clock by CRB checked personnel.

### Key Features

#### Removal of assets from desk

You won't need to worry about how you'll transport your equipment as we'll come and collect it from you, no matter how big or small or where you are in the country. We can also come out of office hours or at weekends, and we'll also remove any packaging.

#### Secure removal of all assets from site inclusive of Waste Note

For added convenience we can also collect all your assets and waste. We do so using non-liveried, GPS tracked vehicles and once collection is made a waste transfer notice will be issued on site. Once the assets are processed at our facility you will receive a full asset report with individual certificates for each machine that has been data wiped using our CESG-approved software.

#### BOXIT large or BOXIT small

This is a unique service to simplify your smaller IT recycling responsibilities. Simply put all your redundant IT equipment into the box that we send you and we'll then collect, itemise, data destroy, certify

and recycle for one low fee.

#### Vault storage of sensitive data/tapes

Our vaulted storage units have 24-hour gated and manned security with 24-hour CCTV. With CRB checked staff, complete with ADISA accreditation, they are the perfect location for secure retention of data.

#### Secure data wiping using CESG software

Secure data erasure ensures the confidential and top secret stays that way. We work closely with some of the leading providers of CESG-approved software to guarantee accurate, quality controlled and fully documented procedures. That is why we are able to promise that 100% of data is permanently wiped from all IT equipment.

#### On-site shredding with our mobile shredding lab

Our approved shredder completely destroys Hard Drives, Discs, Tapes and other magnetic media products to a maximum particle size in any direction of 6mm, therefore meeting the most

### At-a-glance

- Nationwide collection
- Asset management tracking
- Industry leading secure data erasure
- WEEE documentation and complete asset reporting
- Full legislative compliance

stringent government requirements.

#### Cashback scheme on redundant equipment

If your old IT equipment still has market value we will pay you for it. We specialise in finding top value returns for your redundant IT.

### Our services ecosystem

Via our Services Ecosystem, we offer a comprehensive vendor-agnostic, best-of-breed range of lifecycle services that enhance how you approach the strategy, design, implementation, and support of your IT. This is delivered by a skilled portfolio of partners, covering a host of service disciplines including Consultancy, Cloud, Security, Hardware Breakfix, and Disposal.

We undertake rigorous vetting when selecting partners, assessing their services capability, customer referenceability, vendor accreditations, financial standing, commercial terms, and channel focus. In other words, we perform all the due diligence so that our customers don't have to. This saves time, effort, and money.

### About Servium

Servium is dedicated to creating great IT experiences - we seek to win the hearts and minds of IT strategy-makers, professionals and users. Our attitude is that no challenge is too big, no detail too small. We tackle both the ordinary and the extraordinary with the same focus and originality of thought that ensures solutions make a difference. It means we're one partner ready to assemble all the technology and know-how every medium to large organisation relies on. Matched by straight-talking, real-world experience and amazing service, our customers enjoy exceptional value; the product of the best innovation, latest thinking and a thriving ecosystem of technical experts.
